Report of the Board of Directors Chair and Chief Executive Officer

Inspiring with passion, leads to success

The last few years have clearly been growth years for our credit union. In 2010 we celebrated various milestones which included a number of mergers; then in 2011 we continued charting our course as we changed our name to Luminus Financial which represented a new era for our members and our brand promise of "clearly better banking"; and during 2012 we continued to be inspired and passionate about our credit union and helping members achieve their financial goals.

Recently the Deposit Insurance Corporation of Ontario released their 2012 fourth quarter sector outlook and compared those results with 2011, and we are pleased to inform you that Luminus Financial exceeded many of those highlights. For example, sector assets increased by 8.3%, while our assets increased by close to 12%. Total loans increased 9.3%, while our total loans to members increased by 10%. Finally, total deposits increased by 6.2%, while our total deposits to members increased by almost 13%. These achievements are a true testament to our belief that there is strength in numbers. By having four other credit unions join us in the last two years we have been able to continue providing the financial services that our members have come to expect as well as lowering our efficiency ratio by about 6% which is in line with the direction to improve our internal operations and finding efficiencies within all our operations.

Many of our accomplishments would not be possible without the continued support of our members. Your support through changes of our credit union – becoming open bond, your investment in our investment shares, our name change, the mergers – have all been contributing factors in becoming one of the top 100 credit unions in Ontario. And we will continue to expand on our brand promise of "clearly better banking". For 2013 you can expect some new services including the highly awaited email money transfers, e-statements and the recently announced foreign cash service. The email money transfers will allow you to transfer funds to and from other financial institutions, while e-statements will help us in become more environmentally friendly. The foreign cash service will allow us to offer members the convenience to buy and sell foreign exchange cash (US Dollars, Euros, Brazilian Real, Hong Kong Dollars, etc.) at prices that are below those of other financial institutions or credit unions. Members will also have access to a greater selection of foreign bank notes (foreign cash) than what is available at other financial institutions or credit unions...we can pretty much order any type of currency! In the coming months we also plan on expanding our product and service offerings to new communities within Ontario...so stay tuned for details.

Conclusion

Again, it has been another great year of success for our credit union and we're extremely proud of the passion that our entire board of directors have for this organization. A huge thank you goes out to all of our staff as well for their commitment to treat each and every one of you as an owner of this organization, because you are. Each one of our staff is here to listen to you and respond with your financial best interests as our priority, while making you glad to be a member – always.

Respectfully presented this 9th day of April 2013.
